POTTED ROSES

Azaleas

Evergreens

Shrubs

Trees

---

Member of the New Jersey  
Nurserymen's Association

Our roses have been potted in sterilized soil during the winter and stored in sash covered frames. Root action begins early.

---

For clean healthy plants all our roses are protected with Ortho Rose Garden Fungicide which contains 75% Phaltan.

---

They will be well started and have good breaks or foliage by the FIRST week in April, which means early sales for you.

---

## POTTED ROSES
